📍 Ikeja, Nigeria

About

I have over 8 years of experience as a Senior Full-Stack Engineer. Skilled in developing web applications using React, Next.js, TypeScript, and Node.js. Expertise in designing REST APIs, building responsive frontends, and full product development lifecycle. Passionate about creating user-focused applications.

Skills

- JavaScript (ES6+) / TypeScript
- Next.js / React
- Express Js
- MongoDB
- Tailwind / Bootstrap
- Git, Vite, Webpack, Postman
- System Design, Clean Architecture, Microservices, CI/CD, RBAC, PWA, Responsive Design, SEO

Ikechukwu Boniface

Experience

FRNG Limited

Lead Full Stack Engineer | 2026 - Present

I developed, maintained, and optimized full-stack web applications using Next.js, Strapi, and TypeScript. I designed and integrated multiple payment gateways, including cryptocurrency payment systems. I built and automated internal business processes. I collaborated with teams to implement features and enhance platform performance. I participated in system architecture decisions and contributed to product improvements.

SimpleHR

Full-Stack Developer | 2025 - 2026

I developed an enterprise HR leave management system with employee, manager, and admin portals. I created a configurable leave accrual engine with complex business rules, implemented a secure RBAC system, and built automated approval workflows. I also designed reporting dashboards for HR analytics and an interactive team calendar for workforce planning.

ViveeAura

Full-Stack Engineer | 2025 - 2025

I led the development of a luxury short-stay booking platform in Lagos. I designed UI/UX flows, built a high-performance Next.js frontend, and integrated Paystack for secure payments. I also developed a WordPress-based CMS, improved SEO, and handled production deployment and maintenance.

Passpoint

Lead FullStack Engineer | 2023 - 2024

I architected and developed Passpoint (Ebonyi State e-ticketing system) using React, TypeScript, and Redux Toolkit. I designed scalable frontend architecture with clean architecture and reusable components. I implemented complex state management and optimized application performance. I built responsive UI systems with Tailwind CSS. I collaborated with backend teams to integrate REST APIs for seamless data flow.

FRNG Limited

Frontend Web Developer | 2021 - 2026

I develop and maintain responsive client office applications with Vue.js, ensuring seamless user experiences on various devices. I integrate RESTful APIs for efficient data exchange, enhancing user satisfaction by 30%. I manage application state using Vuex and create reusable UI components with Vuetify. I collaborate with cross-functional teams to deliver high-quality features and optimize application performance for a smoother user experience.

First Pavilion Technologies

Frontend Developer | 2019 - 2021

I developed and maintained web applications with HTML, CSS, and JavaScript. I built responsive interfaces with Bootstrap and Vue.js. I participated in Agile/Scrum development and sprint planning. I improved UI performance and maintained production systems.

Education

Software Engineering Certification

Microverse | 2022 - 2024

Computer Science OND

Covenant Polytechnic | 2013 - 2016
